

Manuel Di Cristo

Full Stack Engineer
San Francisco | +01 (424) 603-7126 | dicristomanuel@icloud.com

Moved to the United States from Italy three years ago, and have been learning new languages ever since; from English and Spanish to JavaScript and Ruby.

I have a passion for creating brand new concepts and fresh ways to realize them.

Seeking a collaborative environment to keep growing and make original contributions.

Experience

bPOP | Galvanize EDU San Francisco | 2015-present

bPOP is an exciting service that will connect to your social networks in order to retrieve interesting statistics: number of posts, likes and comments in a specific time range, your top fans and info about what your friends like about you.
bpop.herokuapp.com
